IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

IN RE APPLICATION OF: KEITH ROBINSON
APPLICATION NO.: 10/775,394
FILED: FEBRUARY 10, 2004
FOR: **LOAD BOARD SOCKET ADAPTER AND
INTERFACE METHOD**

EXAMINER: PARESH H. PATEL
ART UNIT: 2829
CONF. NO: 8893

INTERVIEW SUMMARY

MS AF
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The undersigned would like to thank the Examiner for participating in a telephonic interview on June 6, 2007, relating to the above identified patent application. During the interview, the parties agreed to cancel all of the withdrawn claims in the pending application via an Examiner's Amendment.

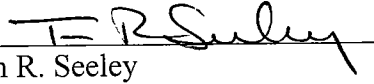

Claims 17-31 were previously withdrawn in response to a Restriction Requirement. During the interview, the Examiner indicated that independent claim 24 and dependent claims 25-31, if allowed, would be subject to a double patenting rejection. Although the undersigned does not concede that these claims, if allowed, would be subject to a double patenting rejection, claims 24-31 are being canceled in an attempt to expedite prosecution.

Additionally, during the interview, the Examiner indicated that claims 17-23 would not be rejoined and allowed because they belong to a patentably distinct species which was not examined and that these claims do not include all the limitations of the allowed claims. Accordingly, in an attempt to expedite prosecution, claims 17-23 are being canceled without prejudice to pursuing these claims in a continuation, divisional, continuation-in-part, or other application.

If the Examiner requires further information relating to this telephonic interview, he is encouraged to contact the undersigned at (206) 359-6477.

Dated: 6 June 2007

Respectfully submitted,

By 
Tim R. Seeley
